I am writing you to submit my OBJECTION to the Delphi Automotive Systems motion to cancel OPEB (Health Insurance Benefits) for current and future Salaried Retirees. I am following the suggested format from Atty. Brandon Duncomb of Skadden , Arps, Slate, Meagher & Flom.

There are a number of reasons this an unfair and unjust motion that should be denied. First, this document was filed with no previous warning to any of the retirees of Delphi, with formal communication made on February 5, 2009 by mail. This only allows 12 days for any concerted effort by retirees, who are spread all across the country, to try and coordinate their objections.

A great majority of the current and future retirees were former General Motors employees, and were given no choice in the forced 1999 spin-off from General Motors. There are several cases of retirees who spent the great majority of their career with General Motors, who are now facing elimination of their Retiree benefits proposed by Delphi Corporation. I fall into this group.

Delphi Corporation very recently has had major reductions in force. Several thousand employees have been forced to leave the Company since late 2008. Many of these people essentially accepted a Retirement program, with no REAL recourse to keep their jobs. I believe that Delphi was aware of this plan to terminate benefits while they were in the process of offering these severance packages, and intentionally concealed that benefits were soon to be eliminated. I, like many others, would not have been interested in accepting the severance if I was aware of this planned benefit termination. I was given a package with all the benefit costs and choices and advised I would have benefits in Retirement. After just 3 months of retirement, Delphi is terminating these promised benefits. I believe that Delphi has recanted on that promise, and should offer me a full-time position back with the Company in light of their manipulation.

Please consider these points, as I would like to enter my OBJECTION to this motion by Delphi Automotive to terminate Retiree Health Benefits, and file a Claim for my Financial loss against Delphi for the cost of these future benefits that were promised and are now being terminated.

Thank you in Advance

Dave LaLiberte
